

Nagoya University Faculty Recruitment: Assistant Professor Position (Tenure Track) in the Department of Molecular Medicine and Metabolism, Research Institute of Environmental Medicine (RIEM)

The RIEM at Nagoya University wishes to recruit one Assistant Professor (tenure track), according to the following guidelines:

1. Job title/quantity: One Assistant Professor (Non-independent, tenure track position in the Department of Molecular Medicine and Metabolism)
2. Requirements: Applicant should have a PhD degree.

We are recruiting a highly motivated young researcher who is capable of active involvement in the planning and carrying out of research projects in the Department of Genetics, as well as cooperating with other faculty members to contribute to graduate education and management in the Department.

[For reference] Research projects in this Department

The main research of our department is to reveal the molecular mechanisms of the metabolic syndrome and a variety of lifestyle-related diseases, particularly focusing on obesity-induced chronic inflammation and immunometabolism, in order to develop novel therapeutic strategies. Applicants should have deep knowledge about endocrinology, nutritional science, immunology, and medicinal science. They are also expected to play a dominant role in research activities using genetically engineered mouse models.

For details, please refer to the website below.

3. Handling: Nagoya University's tenure track system regulations will apply. Prior to completion of the 5-year term of employment, the tenure track faculty member will be evaluated by the Personnel Evaluation Committee. Upon successful evaluation, he/she will be appointed as a tenured position. Otherwise, he/she will be employed as a Designated Assistant Professor for a fixed term of one year (non-renewable).

4. Start of employment: April 1, 2018.

5. Required application documents: Please enclose 4 copies (one original and 3 copies) of:

- 1) Your complete curriculum vitae (no set format, photograph attached)
- 2) Research summary (details of your research to date, plus plans for research after taking up this post, and your aspirations: up to 2 pages or approx. 1,000 words)
- 3) List of publications/achievements:

- a. Published papers (classified under the following 5 categories: books, sole authored works, research papers, study reports, and other.)
- b. Copies of key publications (up to 5)
- c. Funding status (KAKENHI, private grants, etc.)

\*All documents should be A4 size (except those in point 3) b).

\*[Handling Personal Data] All information given by applicants for this position will be handled in strict confidentiality, and will not be utilized for any other purpose or disclosed to any third party. Application documents cannot be returned.

6. Send your complete application to: Director, Research Institute of Environmental Medicine, Nagoya University. Furo-cho, Chikusa-ku, Nagoya, Aichi 464-8601, Japan

\* Please enclose the above documents in an envelope and write “Application Documents for RIEM Molecular Medicine and Metabolism Assistant Professor Position Enclosed” in red ink on the envelope. Please send by registered mail.

7. Deadline: Applications must be received by 17:00, January 5, 2018.

\* Nagoya University promotes gender equality in recruitment. This recruitment is open to international applicants.
